Section 1: This standard operating procedure is for

☐ Use of Survival Surgery Core

Section 2: iLabs/

https://my.ilabsolutions.com/account/login

Set up an account prior to your experiment to assure availability of the equipment.

Section 3: Potential Hazards

Virkon or clorox wipes are used to clean stations/equipment after every use. Please wear gloves when spraying surfaces you have used to avoid potential irritation to the skin.

Section 4: Personal Protective Equipment

- Chemical resistant gloves for cleaning surfaces
- Masks must be worn to prevent potential contamination to equipment and exposure to others you are around.

Surgical gloves are located in black cabinet. Lab gloves are located in the hallway before entrance.

If you do not have a mask, please request one prior to using the core. Surgical masks are located in the cupboard in the prep area.
Section 5: Engineering Controls

Only 1 person may be in the prep area at a time. Four people may be in the surgery area at one time. Station 3 is not available for use to keep users 6’ + apart.

Section 6: Exposure Procedures

Skin exposure: For small, uncomplicated skin exposures of low toxicity chemicals, rinse affected skin with plenty of water. If allergic reaction occurs seek medical attention and/or proceed as directed by your PI or lab manager.

Section 7: Material Safety Data Sheet / Safety Data Sheet - Virkon

Section 8: Protocols

Area should be clean and tidy when you enter, please contact Heather in B442 if it is not. When you finish your work, please wear gloves and spray paper towel and wipe down areas and surfaces you have touched.

Thank you for your cooperation!
